

**CCA**

**ALLOCATION SYSTEM**

**Write-up**

*Prepared by  
Jonathan Yeo  
RJCAT Consultancy*

# Overview

The objective of CAS is to allocate CCA to students based on their preferences and the CCA parameters within reasonable amount of time.

CAS is very organized. It streamlines the process of CCA Allocation. It is simple to use and can save tremendous amount of time. For example:

- Student Choices - This is online. Student log in to a portal to register their choices. In addition, information like Drug Allergies, Previous Year CCA, Level of Competition and NAPFA can also be collected. There is no need for paper work and collation. All data collected will be merged into CCA directly via text file.
  
- Allocate CCA - Allocation is done systematically once all the parameters are defined. You can set Max Number of members allowed in each CCA and the Min number of Members in each CCA to monitor. Allocation is done in the following order:
  - 1) Students whose CCA are being FIXED for some reasons (Manual)
  - 2) DSA Students
  - 3) Ranked Students (Ranked by CCA Teachers)
  - 4) The rest of the Students based on 1<sup>st</sup> Choice, 2<sup>nd</sup> Choice, 3<sup>rd</sup> Choice and so onAllocation can be completed within seconds except for "Left Over" which you need to allocate manually.
  
- Generate Reports - Class List with their Choices and Allocated CCA  
CCA List with their Members and choices  
Allocation Statistics

# Work Flow

The following is the recommended work flow for the CCA Allocation Exercise

<b><u>Order</u></b>	<b><u>Description</u></b>	<b><u>Action By</u></b>
1	Convert Cockpit Data (Class and Pupil)	CAS Administrator
2	Update all the CCA offered and Set Parameters Max and Min Order of Allocation (Preferred Order of Allocation by CCA)	
3	Update CCA Ranking List, if any (Ranking can be updated prior to Allocating CCA to students)	
4	Upload Database to CCA Portal	RJCAT
5	Student Opt for their CCA Choices	Student
6	Download Database from CCA Portal	RJCAT
7	Merging Students' Choices to CAS	CAS Administrator
8	Allocate CCA to Students	CAS Administrator

# Sample Screen #1

24      418      295      123

- Order - The preferred Order allocating CCA. You will generally order Niche CCAs first.
- Max - Maximum number of Members allowed in the CCA. Allocation will ignore the rest of the choices if the MAX is reached.
- Min - Minimum number of Members to monitor. This has no effect on the Allocation. It is just an indicator to show if the Minimum Number of Member has reached.

Note:  
The rest of the columns are statistics generated when you Allocate CCA to students.
